

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Electric scissors

Raw Material

Acrylonitrile butadiene styrene (ABS)

Polyoxymethylene (POM)

Steel

Packaging

Inner: Cardboard

Outer: Corrugated board box

Field Of Application

An electric scissor made for cutting light fabrics and papers such as tablecovers and tête-à-têtes.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects**Product**

ABS is made by refining of mineral oil or natural gas.

The polymer consists simply of carbon and hydrogen

POM consists of carbon, hydrogen and oxygen.

Steel is an alloy consisting mostly of iron, with a carbon

Packaging

The paper is 100% recycled paper. The corrugated board box is unbleached and to a large extent made of recycled fibers.

Product Safety

- Duni manufacturing units are certified according to the international quality system ISO 9001 and 9002. They have also implemented the environmental management system ISO 14001.

Management Of Used Products**Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is a copy of a document issued 2021-06-09. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
