

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Cold Plate

The corrugated board box is made from wood, which is a renewable resource.

Raw Material

Paraffin Liquid, Aluminium Alloy, Powder lacquers, stainless steel bullet.

Product Safety

The product/raw materials fulfill the following:

Packaging

Inner: Paper

Outer: Corrugated board box

- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Field Of Application

The products are intended for keep food cold when transported in different transport solutions.

Management Of Used Products

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Environmental Aspects

Packaging

Paper is made out of tree, which is a renewable resource. The paper is unbleached.

Validity

This is a copy of a document 2021-06-15. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
