

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Whistles

Raw Material

Polystyrene (PS)

Additives

Colour

Packaging

Inner: Polypropylene (PP)

Outer: Paper

Field Of Application

The whistle is a toy and can for example be used at birthdays

Note! This toy is not intended for children under 36 months.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC. For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects

Product

PP is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen

The carton is to some extent made out of recycled paper.

Packaging

Polyethylene is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen. The corrugated board box is to a large extent made of recycled fibres.

Product Safety

- The product complies with the European Standard EN 71 concerning the safety of toys.
- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Management Of Used Products

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is a copy of a document issued 2018-09-03. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
