

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Wood stirrer

Material

Untreated birch wood

Packaging

Inner: Polypropylene (PP) and Paper

Outer: Corrugated board

Field Of Application

To be used as stirrer in beverages.

Not suitable for microwave use.

Different kinds of food can have an impact on the physical behaviour of the wood. Duni's recommendation is for the customer to test their application for their needs.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects

Product

Birch wood, which is a renewable source.

Packaging

Polyethylene is a polymer produced from refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen.

The corrugated board box is made from wood, which is a renewable resource.

Product Safety

The products fulfil the following:

- EU Regulation 1935/2004/EC
- EU Regulation 2023/2006/EC
- Analysis has been performed according to LFGB (Lebensmittel- und Futtermittelgesetzbuch, Germany Regulation).
- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Management of Used Products

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Although natural materials, the wooden cutlery will not break down in time to be compostable or thrown with food waste. And there is normally no wood collection system for recycling. For further details, check with the local recycling company.

Recycling of the plastic and the corrugated board is possible for producing new products.

Validity

This is a copy of a document issued 2019-11-18. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB.
