

## ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

### **Product**

Paper sleeve

### **Raw Material**

Wood pulp

### **Packaging**

Inner: Corrugated Cardboard

Outer: Corrugated Cardboard

### **Field Of Application**

The sleeve is supposed to be used for take-away cups to diminish the feeling of the hot surface of a filled cup.

### **EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

### **Environmental Aspects**

#### **Product**

The wood pulp comes from virgin fibres. Wood is a renewable source.

#### **Packaging**

The corrugated board is unbleached and to a large extent made from recycled fibres.

### **Product Safety**

Duni manufacturing units are certified according to the international quality system ISO 9001 and environmental system ISO 14001 as well as to BRC for hygiene.

### **Management of Used Products**

#### **Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

#### **Recycling**

Recycling of the corrugated board is possible for producing new products. Check with the local recycling company.

### **Validity**

This is a copy of a document issued 2019-07-05. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB.
