

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET**Product**

Bamboo Holder 3 in 1

Raw Material

Bamboo, stainless steel

Packaging

Inner: Cardboard

Outer: Cardboard

Field Of Application

Indoor use

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects**Product**

The product is manufactured from Bamboo fibres.

Packaging

PE foil is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen. The corrugated board box is made from wood, which is a renewable resource.

Product Safety

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Management Of Used Products**Energy Recovery**

Packaging materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Metal part: is free from heavy metals, such as mercury, lead, cadmium and hexavalent chromium or other hazardous substances. Check with the local recycling company.

Bamboo: Check with the local recycling company.

Validity

This is a copy of a document issued 2021-05-10. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Customer Service or CSR & Quality Department.
