

ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET**Product**

Bamboo napkin dispenser

Raw Material

Bamboo, glue

Additives

Lacquer

Packaging

Inner: no inner package

Outer: Cardboard carton

Field Of Application

A napkin dispenser for indoor use.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects**Product**

The product is manufactured from Bamboo fibres.

Packaging

The corrugated board box is made from wood, which is a renewable resource.

Product Safety

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Management Of Used Products**Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Make sure the dispenser is managed in the right way after use. Check with the local recycling company for most suitable waste handling.

Recycling of the corrugated board is possible for producing new products.

Validity

This is a copy of a document issued 2021-05-10. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, CSR department.
