

# ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

**Product**

Wet towel

**Material**Lotion:

*Aqua, Olus Oil, Glycerin, Lauroyl Glucoside, Polyglyceryl-2-Dipolyhydroxystearate, Glyceryl Oleate, Dicaprylyl Carbonate, Sorbitan caprylate, Propandiol, Benzoic Acid, Sodium Benzoate, Citric Acid, Fragrance*

Towel:

*100 % biodegradable viscose*

Laminate:

Foil/Unbleached paper /Aluminium/PE

**Packaging**

Inner: PE

Outer: Corrugated board

**Field Of Application**

Hand cleansing wipe. Lightly scented.

Non-irritant for skin.

For immediate and single use after opening.

**EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

**Environmental Aspects****Product**

These products are approved for use in applications with direct skin contact according to EU Regulation No. 1223/2009 concerning cosmetic products.

**Packaging**

The corrugated board is to a large extent made out of recycled fibres and unbleached.

**Product Safety**

The products fulfil the following:

- European Cosmetic Regulation 1223/2009. These products are approved for use in applications with direct skin contact according to EU Regulation No. 1223/2009 concerning cosmetic products.
- Asthma-Allergy Denmark has reviewed the product formula and had no remarks related to the lotion.
- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

**Management Of Used Products****Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

**Compostability**

The wet wipe is compostable in industrial facilities and fulfil the biodegradability requirement of EN standard 13432:2000 (Requirements for packaging recoverable through composting and biodegradation).

**Recycling**

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

**Validity**

This is a copy of a document issued 2019-02-05. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB.
