

# ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

## Product

Wet towel

## Material

### Lotion:

*Aqua, Olus Oil, Glycerin, Lauroyl Glucoside, Polyglyceryl-2-Dipolyhydroxystearate, Glyceryl Oleate, Dicaprylyl Carbonate, Sorbitan caprylate, Propandiol, Benzoic Acid, Sodium Benzoate, Citric Acid, Fragrance*

### Towel:

*100 % biodegradable viscose*

### Laminate:

*Foil/Unbleached paper /Aluminium/PE*

## Packaging

Inner: PE

Outer: Corrugated board

## Field Of Application

Hand cleansing wipe. Lightly scented.

Non-irritant for skin.

For immediate and single use after opening.

## EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

## Environmental Aspects

### Product

These products are approved for use in applications with direct skin contact according to EU Regulation No. 1223/2009 concerning cosmetic products.

### Packaging

The corrugated board in the outer packaging is to a large extent made out of recycled fibres and unbleached.

## Product Safety

The products fulfil the following:

- European Cosmetic Regulation 1223/2009. These products are approved for use in applications with direct skin contact according to EU Regulation No. 1223/2009 concerning cosmetic products.
- Asthma-Allergy Denmark has reviewed the product formula and had no remarks related to the lotion.
- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

## Management Of Used Products

### Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

### Compostability

The wet wipe is compostable in industrial facilities and fulfil the biodegradability requirement of EN standard 13432:2000 (Requirements for packaging recoverable through composting and biodegradation).

### Ok Compost Industrial

Certificate for awarding and use of the 'OK Compost Industrial' conformity mark TA8011802868.

*The sachet protecting the wipe is not compostable.*

### Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. However, recycling depends on collection, sorting and general material acceptance. Always consult with a local waste handler for recycling recommendations.

### Validity

This is a copy of a document issued 2022-09-19. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni Group.
