

ENVIRONMENTAL AND PRODUCT INFORMATION SHEET

Product

Cassettes for DF5-machines

Raw Material

Aluminium alloy EN 6082

Rubber

Packaging

Outer: Corrugated board box

Field Of Application

The cassettes are intended for the use in DuniForm-machines when sealing DuniForm-trays or cups.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example, minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects**Product**

Aluminium is a medium strength alloy with excellent corrosion resistance. Rubber is a combination of polymers of isoprene units and other natural substances and impurities.

Packaging

The corrugated board box is made from wood, which is a renewable resource.

Product Safety

The product/raw materials fulfill the following:

- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented implement the environmental management system ISO 14001.

Management of Used Products**Recycling**

Please make sure the cassette is managed in the right way after use. Recycling depends on collection, sorting and general material acceptance. Always consult with a local waste handler for recycling recommendations.

Recycling of the plastic and the corrugated board is possible for producing new products.

Energy Recovery

All packaging materials are suited for energy recovery.

Validity

This is issued 2023-05-04. It is revised when there is a change in the manufacturing process, in the product or in legislation.
