

ENVIRONMENTAL AND PRODUCT DATA SHEET

Product

LED Candle Spares Set, Rechargeable
- Warm white.

Material

Plastic shell
Electronic part

Packaging

Inner: box
Outer: Corrugated board

Field of Application

For indoor use.
Fixed amount of LED lamps which are to be cleaned with a damp cloth.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.
For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Product Safety

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented or will implement the environmental management system ISO 14001.

The product fulfils the following:

- **Low voltage directive: (LVD)**
Directive 2014/35/ EU
- **Electromagnetic Compatibility: (EMC)**
2014/30/EU
EN 61547:2009
EN 55015:2019+A11
EN 61000-3-2:2019
EN 61000-3-3:2013+A1
EN 50563:2011+A1
- **RoHS Directive with amendment**
2011/65/EU-2015/863/EU

Energy related Product: (Erp)

- Regulation 278/2009/EC
- ErP directive 2005/32/EC
- Transport test incl. Drop test
- Burning test – Charging/Function time
- EN 62471
- EN600065 and 60950-1

EU market access in general – CE

Management of used Products

The product complies with:

- EU Directive 2012/19/EU Product Recoverable according to WEEE
- EU Directive 2006/66/EC on batteries and accumulators and waste batteries and accumulators
- RoHS Directive 2011/65/EU on the Restriction of the use of certain Hazardous Substances in Electrical and Electronic equipment

Recycling

- Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.
- Used products should be handled according to local regulations for electronic products and batteries. The product should not be put in general waste.

Validity

This is issued 2023-12-20. It is revised when there is a change in the manufacturing process, in the product or in legislation.
