Product Information Sheet

Product
Duni Tissue 1- and 2-ply napkins made of recycled tissue

Product composition
Tissue paper (recycled)

Packaging
Inner: Polypropylene (PP)
Outer: Corrugated board box

Intended Use
The products are intended for enhancing the meal and serving environment.

Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)
The packaging of this product complies with the applicable requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR). Compliance is supported by technical documentation maintained by the manufacturer. Certain PPWR requirements will be further specified through delegated acts, implementing acts, guidance and harmonized standards. Compliance is therefore assessed against the applicable provisions of the Regulation and available guidance at the time of issue. For the PPWR Declaration of Conformity (DoC), please see the separate PPWR DoC document.

Product Safety
The products and raw material (incl. printing inks) fulfil the following:

- Regulation (EC) No. 1935/2004 on materials and articles intended to come into contact with food.
- EU Regulation 2023/2006/EC (GMP)
- BfR-Recommendations on Food Contact Materials, XXXVI. Paper and board for food contact / BfR = Federal Institute for Risk Assessment.
- Purity requirements of the French Information Note – Fiche MCDA N°4.
- Coloured and printed products are tested according EN 646 (Determination of colourfastness of dyed paper and board) and has been found to have good fastness.
- Duni manufacturing units are certified according to the international quality system ISO 9001 and environmental system ISO 14001 as well as to BRC Consumer Products.

Environmental Aspects
The napkins are manufactured from recycled tissue paper. Printing is done with water based flexographic printing ink.

PFAS (per- and polyfluoroalkyl substances) are **not** intentionally being used in any step of the manufacturing of the products covered by this data sheet.

Polypropylene are used for packaging purposes, and the corrugated board box is unbleached and to a large extent made of recycled fibres.

Product End of Life
Collection, sorting and material recovery are all part of the recycling process. Recycling is dependent on local waste handling infrastructure. Ease and recyclability of a product depend on the type of material, composition and sometimes color.

The packaging material can be recycled as paper and plastic respectively. Used products should be handled according to local regulations. Some areas may allow products to be disposed with food waste, but to be sure, please check with local waste handling company.

Validity
This is issued 2026-09-07. It is revised when there is a change in the manufacturing process, in the product or in legislation.
