

**ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET****Product**

Candle lamp Globe + suspension kit

**Raw Material**

Glass

ABS plastic

Metal

**Packaging**

Inner: Foil, paper, corrugated board

Outer: Corrugated board

**Field Of Application**

For indoor and outdoor use. The candle lamp together with a LED light is meant to create light and nice atmosphere.

**EC Directive 94/62/EC on Packaging and Packaging Waste**

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

**Environmental Aspects****Product**

Most glasses contains about 70–72 % by weight of silicon oxide (SiO<sub>2</sub>).

**Packaging**

PE foil is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen. The corrugated board box is to a large extent made of recycled fibres. The printing ink is water-based.

**Product Safety**

- **NOTE:** This candle lamp can only be used with LED light. No open candle is allowed to use for this candle lamp.
- Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

**Management Of Used Products****Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

**Recycling**

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

**Validity**

This is a copy of a document issued 2021-09-01. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs
