

Declaration of Compliance

Description	Material	Article Number
<i>Bagasse products</i> <i>Bowls, boxes, lids and plates</i> <i>(brown or white)</i>	<i>Bagasse</i> <i>(sugarcane fibres)</i>	205764

Duni declares the article meets the requirements of:

- Article 3, 11(5), 15 and 17 of Regulation (EC) No 1935/2004 (Framework regulation)
- EU Regulation 2023/2006/EC (GMP)
- LFGB (BfRXXXVI)
- Fluorinated substances in paper and cardboard food contact materials of the Ministry of Environment and Food of Denmark dated May 2018

Field of Application

The bagasse products can be used safely with all types of foods up to 100°C but due to functional properties please be aware:

- The bagasse material has reduced resistance for moist and grease and therefore primarily recommended for short-term use. For dry food the products can be used for long period of time.
- Not to be used in conventional oven.
- If put in refrigerator or freezer condensation on the material may lead to weakening of the material.

Different kinds of food can have an impact on the physical behaviour of the bagasse. Duni's recommendation is for the customer to test their application for their needs.

Product safety

Analysis of the material performed by an independent institute shows the tested samples meet the requirements of BfRXXXVI and Regulation (EC) No. 1935/2004.

No PFAS (Per- and polyfluoroalkyl substances) are intentionally added.

This document of compliance is based on:

- Documentation from manufacturer
- Test reports
