

ENVIRONMENTAL AND PRODUCT DATA SHEET

Product

Bamboo LED Holder with walnut finish

Raw Material

Bamboo, acrylic plastic

Packaging

Inner: no inner package

Outer: Cardboard carton with inside separators and protection zone

Field Of Application

Indoor and Outdoor use.

Unique bottom solution fitting for the rechargeable Duni LED set (Art No 165735 ,171486, 206435, 206436 and 186497).

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC.

For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects**Product**

The product is manufactured from Bamboo fibres.

Packaging

PE foil is made by refining of mineral oil or natural gas.

The polymer consists simply of carbon and hydrogen.

The corrugated board box is made from wood, which is a renewable resource.

Product Safety

Duni manufacturing units are certified according to the international quality system ISO 9001. They have also implemented the environmental management system ISO 14001.

Management Of Used Products**Energy Recovery**

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is issued 2023-10-10. It is revised when there is a change in the manufacturing process, in the product or in legislation.
