

## Environmental and product data sheet

### Product

Duni Tissue 1- and 2-ply napkins made of recycled tissue

### Product composition

Tissue paper (recycled)

### Packaging

Inner: Polypropylene (PP)

Outer: Corrugated board box

### Intended Use

The products are intended for enhancing the meal and serving environment.

### Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC. For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

### Product Safety

The products and raw material (incl. printing inks) fulfil the following:

- Regulation (EC) No. 1935/2004 on materials and articles intended to come into contact with food.
- EU Regulation 2023/2006/EC (GMP)
- BfR-Recommendations on Food Contact Materials, XXXVI. Paper and board for food contact / BfR = Federal Institute for Risk Assessment.
- Purity requirements of the French Information Note – Fiche MCDA N°4.
- Coloured and printed products are tested according EN 646 (Determination of colourfastness of dyed paper and board) and has been found to have good fastness.
- Duni manufacturing units are certified according to the international quality system ISO 9001 and environmental system ISO 14001 as well as to BRC Consumer Products.

### Environmental Aspects

The napkins are manufactured from recycled tissue paper. Printing is done with water based flexographic printing ink.

Polypropylene are used for packaging purposes and the corrugated board box is unbleached and to a large extent made of recycled fibres.

### Product End of Life

Collection, sorting and material recovery are all part of the recycling process. Recycling is dependent on local waste handling infrastructure. Ease and recyclability of a product depends on the type of material, composition and sometimes color.

The packaging material can be recycled as paper and plastic respectively. Used product should be handled according to local regulations. Some areas may allow products to be disposed with food waste, but to be sure, please check with local waste handling company.

### Validity

This is issued 2024-08-22. It is revised when there is a change in the manufacturing process, in the product or in legislation.
