

## DECLARATION OF COMPLIANCE

Description	Material	Article Number
<i>WB-coated cups</i>	<i>Cardboard Water based (WB)-coating</i>	<b>208844</b>

Duni declares that the article meets the requirements of:

- Article 3, 11(5), 15 and 17 of Regulation (EC) No 1935/2004 (Framework regulation)
- EU Regulation 2023/2006/EC (GMP)
- LFGB, BfRXXXVI Recommendation
- Order No. 681 of May 25 (2020) from Danish Ministry of Environment and Food on ban of per- and polyfluoroalkyl substances (PFAS) in paper and cardboard food contact materials.

### Field of Application

The cups can be used with all aqueous, acidic and alcoholic (<10 %) beverages up to 90°C.

### Limitations of the material:

Paper is a fibrous material and as the surface of the cups have no plastic lamination, therefore they are not suitable for long-term use due to potential loss of stability.

The cups are not suitable to be used in a microwave oven.

Different kinds of food can have an impact on the physical behaviour of the paper plate. Duni's recommendation is for the customer to test their application for their needs.

### Product Safety

Analysis of the material performed by an independent institute shows the tested sample meets the requirements of the German LFGB and Regulation (EC) No. 1935/2004. See details in Annex I.

No PFAS (Per- and polyfluoroalkyl substances) are intentionally added.

## Annex I

### Summary of analyses

Test	Result
Sensory test	Pass
Extractable heavy metals	Pass
Formaldehyde	Pass
Glyoxal	Pass
Release of optical brighteners	Pass
3-monochloro-1,2-propanediol (MCPD), 1,3-dichloro-2-propanol (DCP)	Pass
Azo Dyes	Pass
Specific migration of primary aromatic amines (PAA)	Pass
Mineral oil components MOSH/MOAH	Pass
Pentachlorophenol (PCP)	Pass
Preserving effect	Pass
Phthalates	Pass
Migration of Bisphenol A	Pass
Overall migration (for all kinds of foods 2 hours at 40 °C)	Pass
