

## ENVIRONMENTAL AND PRODUCT INFORMATION SHEET

### **Product**

Velviq Tête á Tête, Banquet reels and Placemats

### **Material**

Wooden pulp

Binder

Dyes and printing inks

### **Packaging**

Inner: Plastic film of polyethylene (PE) or polypropylene (PP)

Outer: Corrugated board box

### **Field of Application**

The products are intended for enhancing the meal and serving environment.

### **Environmental Aspects**

#### Product

Velviq is manufactured from bleached virgin pulp. The pulp is white or dyed. Printing is done with water based flexographic printing ink.

The products are FSC certified according to "Mixed Sources" certification number DNV-COC-000148.

PFAS (per- and polyfluoroalkyl substances) are **not** being used in any step of the manufacturing of the products covered by this data sheet.

#### Packaging

Polypropylene or polyethylene is used for packaging purposes.

The corrugated board box is unbleached and to a large extent made of recycled fibers

### **Product Safety**

The product (incl. printing inks) fulfils the following:

- Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27th October 2004 concerning materials and articles intended to come into contact with food and for cancellation of Directives 80/590/EEC and 89/109/EEC
- Commission regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food
- Foodstuffs, Consumer Goods and Animal Feed Code ("Foodstuffs and Animal Feed Code" - LFGB)
- Fluorinated substances in paper and cardboard food contact materials of the Ministry of Environment and Food of Denmark dated May 2018
- Article 5 of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR) regarding the restriction of per- and polyfluoroalkyl substances (PFAS) in food packaging
- Suitability for the contact with foodstuffs of organic materials made of vegetable fiber that are intended for the contact with foodstuffs of the French General Directorate of competition, consumer goods and Fraud control

- Swiss Ordinance No. 817.023.21 on Materials and Articles in contact with Food from 23rd November 2005 (Swiss Consumer Goods Ordinance)
- Duni manufacturing units are certified according to the international quality system ISO 9001 and environmental system ISO 14001 as well as to BRC Consumer Products.

### ***Packaging and Packaging Waste***

The packaging complies with all essential requirements as defined by PPWR (Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste). This means minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, recycling, material recovery, energy recovery or composting (more details under Management of Used Products).

### ***End of Life***

#### Recycling

Used products should be handled according to local regulations, for best guidance, please check with local waste handling company.

Recycling of the packaging material (plastic and the corrugated board) is possible.

#### Energy Recovery

Incineration facilities for energy recovery are dependent on local infrastructure. Incineration for energy recovery is a good alternative when material recovery is not available by recycling.

### ***Validity***

This is issued 2025-09-23. It is revised when there is a change in the manufacturing process, in the product or in legislation.
